TO THE LONDON EDITION.

---

THE plan and execution of this abridgment are already too well known to the public, to require any new explanation or encomium at the present day, after it has passed through six successive editions with such general approbation. Of the present edition it may be proper to observe, that considerable pains have been taken to have it accurately printed: not only have numerous typographic errors been corrected, but also occasionally some editorial oversights; and, upon the whole, there is reason to hope that it will be found to give satisfaction.
